

Eligibility Requirements

You must be a member of the Union and complete all required enrollment forms to participate in the plan. Once completed, your eligibility for coverage is tracked through an hour bank system. A minimum of 260 initial hours must be reported and paid to the Plan on your behalf by a participating employer within a period of five consecutive months. Your coverage then begins on the first day of the month following the month in which these requirements are fulfilled. Once you are eligible, 130 hours are withdrawn each month from your hour bank to pay for coverage under the Plan. You may accumulate up to six months coverage (780 hours) which can be used during a period of reduced employment, illness or extended vacation. Your coverage will continue for as long as your hour bank contains sufficient hours and provided you remain a member of the union.
